SUMMARY

Software Developer with experience in building and maintaining web applications using Laravel, React.js, Tailwind CSS, PHP, JavaScript, and MySQL. Proven ability to develop responsive user interfaces, implement business logic, manage databases, and contribute to full software development lifecycles. Experienced working on enterprise and community-based digital platforms while collaborating closely with development teams. Passionate about creating efficient, scalable, and user-focused solutions through continuous learning and technical growth.

PROFESSIONAL EXPERIENCES

Software Developer | Dasar Jati Sdn Bhd

Feb 2025 - Present

- Retained core ownership of the KampungOnline.my application post-internship, overseeing long-term maintenance, security updates, and performance optimization.
- Managed and handled the ePTRS (Program Tuisyen Rakyat Selangor) project booth for Menteri Besar Incorporation (MBI) during company events and project demonstrations.
- Communicated directly with users, clients, and visitors by explaining the application features, workflows, and overall system functionality.
- Demonstrated how the ePTRS application operates and guided users on how to use the platform effectively.
- Provided support and answered user inquiries professionally to improve user understanding and engagement.

Project: ePDK

- Developed and maintained web-based modules using Laravel and Tailwind CSS.
- Designed responsive and user-friendly interfaces for internal users.
- Managed and optimized SQL database operations including data retrieval and validation.
- Collaborated with team members to gather requirements and implement business logic.
- Assisted in debugging, testing, and improving application performance.

Project: eLearning Platform

- Built and enhanced platform features using React.js, Laravel, and Tailwind CSS.
- Developed the "PPAS" pilot project module including workflow implementation and testing.
- Improved responsive design and cross-browser compatibility for better learner experience.
- Worked closely with the development team to ensure smooth feature integration.

Industrial Trainee | Dasar Jati Sdn Bhd

Sept 2024 - Jan 2025

- Developed and maintained the **KampungOnline.my** web application using Laravel, HTML, CSS, and JavaScript.
- Created responsive UI components to improve usability across desktop and mobile devices.
- Built backend functionalities and handled SQL database management.
- Participated in code reviews and collaborated with developers to deliver project requirements.
- Assisted in digital marketing initiatives through social media campaigns, email promotions, and website banners.
- Assisted in handling the ePTRS project booth for Menteri Besar Incorporation (MBI) during internship activities and project showcases.
- Helped explain application features and system workflows to visitors and users.
- Supported users by answering inquiries and demonstrating how the application functions.

EDUCATION

Bachelor of Computer Science (Hons) Universiti Kebangsaan Malaysia (UKM)	Oct 2021 - Aug 2025
Science (Modul 2) Kolej Matrikulasi Johor Muet: Band 4	Aug 2020 – May 2021

LANGUAGE & SKILLS

- **Language:** Malay (Native), English (Conversational)
- **Technical skills:** HTML5, CSS3, JavaScript, PHP, C#, SQL, React.js, Laravel, .NET, Tailwind CSS, Bootstrap, MySQL, MSSQL
- **Tools & Platforms:** Visual Studio, Visual Studio Code, Git, GitHub, Android Studio, Figma, Canva
- **Core Competencies & Soft Skills:**
 - Responsive UI/UX design & cross-browser compatibility
 - Systematic debugging, troubleshooting, and database optimization
 - Strong team collaboration, cross-functional communication, and project ownership
 - Highly adaptable to new frameworks with a fast-learning attitude
